

Business idea

To supply steel castings, mainly to the European and North American markets, fully finished by mechanical machining etc, so that our customer's wishes are fully satisfied and we achieve satisfactory profitability.

The emphasis should be on one-off manufacturing and short series in the weight range 20-8 000 kg. The objective is, using a customer-oriented way of working, to supply the customer with software in the form of foundry, materials and machining knowledge and to spread the risk over different geographical markets and industries.

Quality policy

Kohlswa Gjuteri AB endeavours to ensure it is seen by the customer as a competent collaborative partner.

Our guiding lights;

- High level of service
- Understand and learn the customer's products and requirements
- Strive for short lead-times and to avoid delivery delays
- Maintain profitability, cost effectiveness and competitiveness
- Offer finished products, which includes collaboration with suppliers
- Slick technical solutions
- Develop the skills of staff
- Structured working with continuous improvement
